

Beautiful Balloons

The purpose of beautiful balloon decorations is to create additional atmosphere for your guests to enjoy when they are seated or standing. Balloons are impressive because they can create both dramatic and high visual impact with color, movement, and excitement that is visible when guests enter, are seated, walking around or dancing. Stunning balloons will paint the air with colour!

First Impressions Count

This first impression of the event can be subtly striking, bold and exciting or quietly elegant. Whatever the look you wish to achieve can be obtained by using balloons.

Table decorations should be set to allow your guests to see through the design so as not to interfere with their conversation.

The Top Table

If you are arranging a wedding, then the top table is the main focal point of the reception. The newly married couple ARE the centre of attention. Your decorations should enhance the top table with colour and design.

For Young and Old

Whether you are 8 or 80, or just plain romantic, a decorative balloon bouquet can say it all.

Everyone is Special

And every occasion is special too! And your celebration, whether a wedding, anniversary, christening or themed party is unlike any other! Your colours, your design, your event.

And, at Balloons for all Occasions, every event is one-of-a-kind and we will work with you to make sure that it looks just like you imagined it could!

To order balloons, or to arrange a free consultation phone Claire on 01691 662942 (07764 928901 Mobile) or email balloons@bfao.co.uk
